

# A *Measurable* Difference

## J&L Fiber Services Product Case Study

### Impulse Rotor

#### MILL INFORMATION

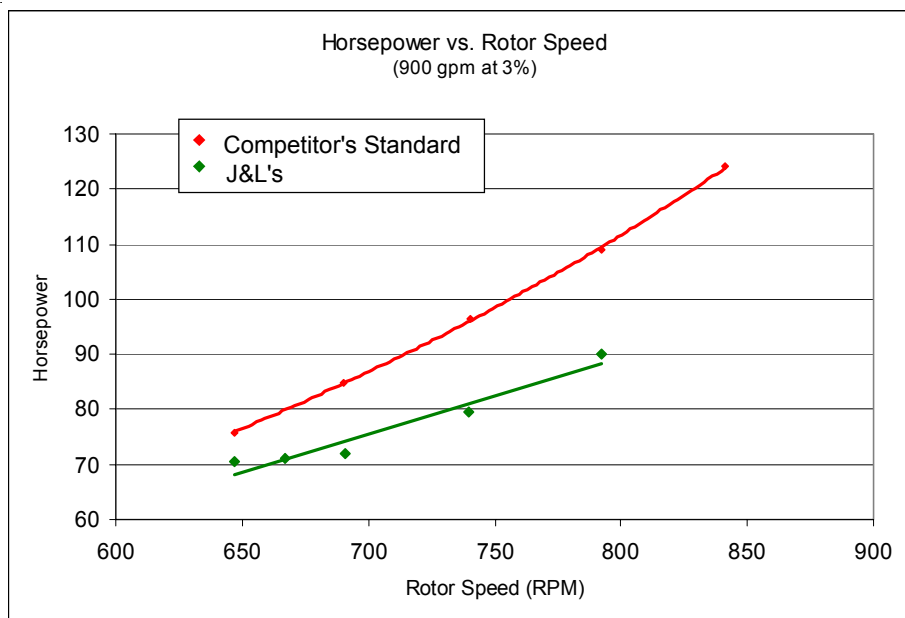

Competitor's standard rotor replaced with J&L's Impulse Rotor

#### OBJECTIVE

Reduce horsepower requirement.

#### RESULTS

- RPM reduction 850 - 750 RPM
- HP reduction 120 - 80 HP
- Maintained capacity, efficiency and runnability

#### CONCLUSION

The Impulse Rotor met quality expectations, but at a lower energy consumption saving the mill \$\$\$ per year.
